Explore the rivers and the stunning **Ria Formosa**, a 60 km nature reserve and its delicious seafood.

The coastal area that extends for about 200 km gives access to fresh fish of unique and internationally recognized quality, seasoned with the **salt and fleur de sel** of excellence that is produced here, a premium product of gourmet gastronomy.

Besides the stunning beaches, golf courses and world-class hotels, you will find a world of opportunities waiting for you in **gastronomy**.

Discover a unique variety of **exclusive and innovative products**, linked to ancestral culinary knowledge, that will awaken your most refined taste.

Discover **traditional recipes** that are true treasures of the **mediterranean diet**, reflecting the cultural identity of the region through the taste.

The excellence of local ingredients provides a **premium** experience, where each dish is prepared with care and dedication, demonstrating the commitment to **gastronomic excellence**.

In this region, **unique and surprising** wines are also produced, with enormous potential and tradition, such as the native grape variety **Negra Mole** that has been gaining more and more lovers in the wine area.

The cultivation techniques passed down from generation to generation give these wines a **distinctive and unparalleled** character that captivates the most demanding palates.

The citrus and dryland orchards, such as the almond and fig, that exist in the Algarve play a key role in the region's **sweets**, giving traditional flavors to local sweets.

These unique ingredients, combined with the passion and know-how of local producers, make Algarve sweets a true **gastronomic experience** that reflects the authenticity of the region.

Carob, known as the "black gold" of the Algarve, is a **versatile and highly nutritious superfood**.

Its presence in local cuisine offers healthy and delicious options that will delight your palate.
